Applicant: Kobayashi, Thomas  
Appl. No.: 10/075,218  
Filing Date: February 14, 2002  
Title: SEMICONDUCTOR DEVICE HAVING A FUSE AND METHOD OF FORMING THEREOF  
Attorney Docket No.: SC11931TP  
Pub. No.: US 2003/015060 A1  
Pub. Date: August 14, 2003

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), filed on August 22, 2006, for the above-identified application

The request is DISMISSED.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within **two months** from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The request for corrected publication, received on August 8, 2006, was not timely filed under 37 CFR 1.221(b).

The patent application publication was published with the contents of another application. Due to the nature of the errors in this publication, the office will *sua sponte* publish a corrected patent application publication. The corrected patent application publication will be published in due course, unless the application is allowed and the patent issues before the application is republished.
